5. PROCEDURE

5.1 General Guidelines

- 5.1.1 There are two types of ranges of pay. The range of pay rates for employees in Technical Occupational Groups (TOG) is called a pay band. A pay band is 67% wide. The range of pay rates for employees in Manager Categories (MC) is called a pay opportunity. A pay opportunity is 50% wide.
- 5.1.2 In general salary decisions should reflect consideration of the employee's appropriate placement within the salary band or pay opportunity relative the midpoint salary of the pay band or pay opportunity (compa-ratio of 100), internal equity, budgetary limitations, market competitiveness, and agency business need. Appropriate placement is a value, established or anticipated, of an individual employee's contribution relative to the value of the full scope of duties and responsibilities of the job as represented by the midpoint of pay for the job.
- 5.1.3 Placement and progression of an employee's salary should be reflective of their demonstrated skill, competency, and performance in the TOG or MC. No employee will be paid at a salary below the minimum or above the maximum of the salary pay band or pay opportunity unless provided for in Personnel Board Rule or statute.
 - 5.1.3.1 **Associate Zone**, first 17% of pay band (compa-ratio of 75.0 – 83.9): pay in this zone should reflect the fact that the employee is still learning the job and has not yet

achieved full competency in the job; received close supervision and is expected to seek instruction and guidance before taking on new tasks.

5.1.3.2 Independent Zone, middle 60% of pay band (compa-ratio of 84.0 – 113.9): pay in this zone should reflect the fact that the employee is fully developed and capable of performing the full scope of job duties and responsibilities; rarely needs instruction and guidance to perform routine duties; expected to assume full accountability for successful completion of tasks.

5.1.3.3 Principal Zone, top 23% of pay band (compa-ratio of 114.0 – 125.0): pay in this zone should reflect the fact that the employee has demonstrated mastery of the job; regularly performs the most complex and demanding work associated with the job role; supervisor spends relatively little time coaching in technical competencies and skills; consistently functions as a team leader.

5.1.4 Each MC Pay Opportunity contains a minimum, midpoint and maximum value with compa-ratios of 80.0, 100.0 and 120.0 respectively.

5.2 Specific Responsibilities.

5.2.1 Each division will be held responsible for remaining within its current fiscal year budgetary limitations without any expectations of funding beyond the current level.

5.2.2 Each division must initiate any pay transaction request with an IDC, a Work Order, and any additional required documentation and submit the request through the proper approval track (see 5.2.3).

5.2.3 There are three type types of approval tracks which are described below and which are referred to in each pay transaction that follows:

5.2.3.1 TYPE A – Division initiates IDC and Work Order, BPB approves, PMB approves, ASD final approval, and PMB retains document.

5.2.3.2 TYPE B – Division initiates IDC and Work Order, BPB approves, PMB approves and prepares Form AGY XXX and attachments, ASD approves, Secretary final approval, and PMB retains documentation.

5.2.3.3 TYPE C – Division initiates IDC and Work Order, BPB approves, PMB approves and prepares Form AGY XXX and attachments, ASD approves, Secretary approves, SPO final approval, and PMB retains documentation.

5.2.4 The PMB shall be responsible for finalizing all requests that must be forwarded to SPO including the appropriate Form AGY XXX and for maintaining documentation of pay transactions which may be subject to SPO or independent audit.
